- **Frontend:** HTML, CSS, React
- **Databases:** MongoDB, SQL
- **Tools:** Git, GitHub
- **Core Concepts:** OOPs, CNS

EXPERIENCE

Web Design Intern — Drops of Change Welfare

May 2026 – Present

- Designing and developing responsive web pages using MERN Stack, improving UI/UX for the organization's platform.

PROJECTS

Connect Pro | MERN Stack

- Built a LinkedIn-inspired professional networking platform enabling users to create profiles, connect with peers, and share updates in real-time.
- Implemented authentication, user feed, and connection request features using Node.js, Express, MongoDB, and React.

ChatGPT Clone | MERN Stack, OpenAI API

- Developed a fully functional AI chatbot application replicating core ChatGPT features using OpenAI API integration.
- Designed a clean, responsive chat interface with message history and real-time AI responses.

Skill Sync | MERN Stack

- Created a student-focused platform to connect learners with peers sharing similar skills and interests.
- Implemented skill-based matching, user profiles, and messaging features to foster collaborative learning.

EXTRACURRICULAR ACTIVITIES

- Technical Team Member at Kryptonex Tech & Innovation Club, organizing tech events for 100+ participants.
- Member of Lumi Vision Club, focused on social and college activities.
